STATEMENT BY FIRM For more than 35 years, VHB has been working to improve mobility, enhance economic vitality within communities, and balance development and infrastructure needs with environmental stewardship. Our team includes engineers, scientists, planners, and designers—each of whom value embracing our clients' goals, anticipating challenges, building long-lasting partnerships, and providing exceptional service. Most importantly, though, VHB professionals understand and appreciate the qualities that make Maine unique: Over the past 35 years of serving Maine and completing Maine projects, we have partnered with clients including the MaineDOT, MTA, PACTS, LL Bean, Acadia National Park, and the cities of Auburn, Belfast, and Portland. We are so committed to enhancing our connection to Maine that in 2012, we opened an office in South Portland, solidifying our dedication to the state as a true member of the local community. Today, our South Portland office is a thriving and rapidly growing team of 19, supported by the experience and resources of VHB's 23 offices and 1,000 professionals along the East Coast. Additionally, several of our staff hold Maine certifications, including over 40 Maine-licensed and certified individuals across a range of disciplines firm-wide. As a commitment to furthering our understanding of the local administration process (LAP) in Maine, seven professionals also hold Maine LAP certifications.
